## **Together We Build**

Series: Investing for Eternity

Exodus 35:1-35

**Dr. Sam Owusu**

**I**t's been estimated that the building of the Old Testament tabernacle would cost, in today's economy, about 10 million US dollars. This presented a challenge: How would Moses come up with such a large sum of money and other resources in the middle of a desert? And from a people who had been slaves for the previous 400 years? The story of how God provided for the building of the tabernacle is an amazing study in the principles of giving.
